FUNCTION

Your Scion tC just got that much better!

Introducing the long awaited, highly anticipated Injen Technology Cold Air Intake System for the 04/05 Scion tC. Featuring a two-piece design, allows for a short-ram conversion if needed. Injen's Tri-Step Process and Dyno Tuned Flange will give you gains of up to 12hp/9 ft-lbs of torque. An eye catching polish finish, let everyone know you're serious about your Scion tC. Also available in Black Powder Coat.

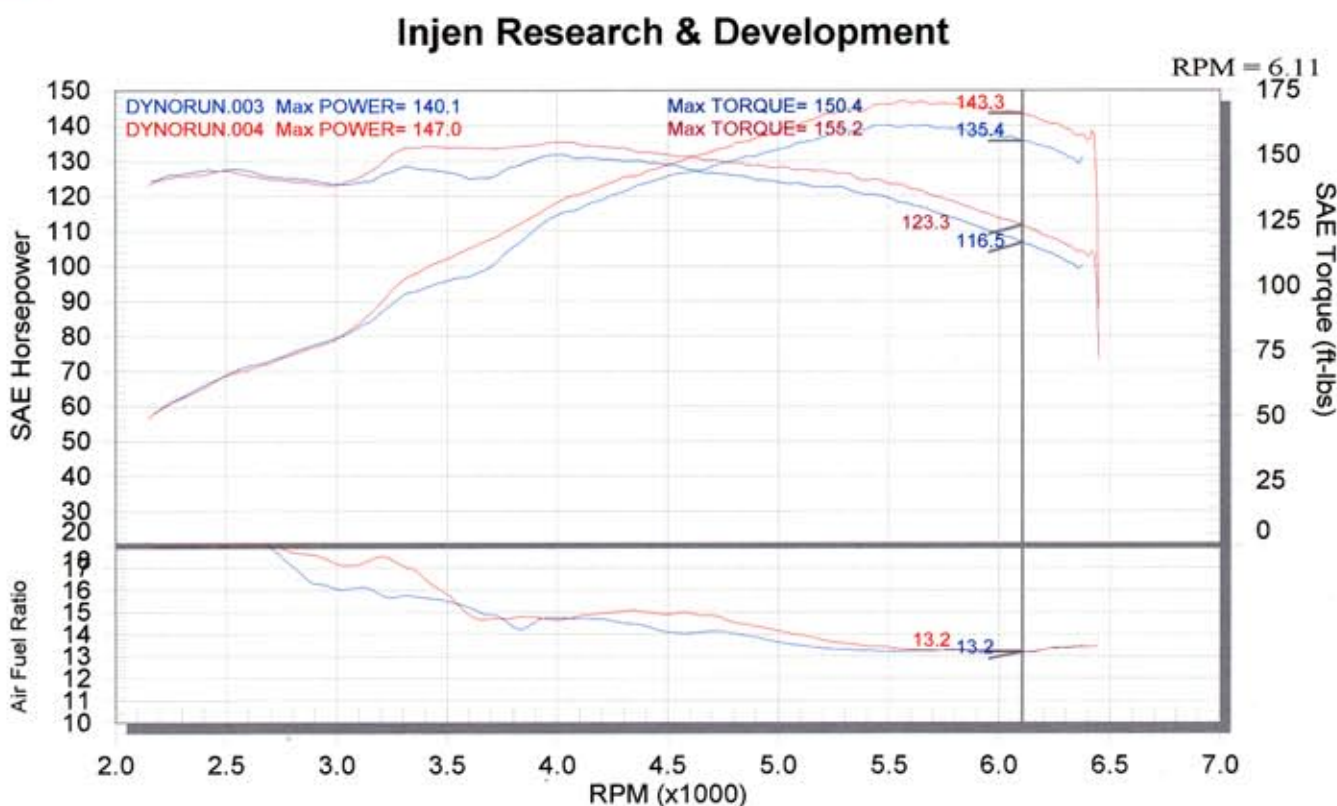

Key features:

- Two-Piece design for ease of installation
- Able to convert to short ram
- Gains of up to 12hp/9 ft-lbs of torque
- Tri- Step Process
- Dyno Tuned Flange
